Amendment F20AC11777-03 (10 pp) Ordinance Serial No. 22-122 (2 pp) Resolution Serial No. 22-102 (2 pp)

SUMMARY STATEMENT: On November 30, 2020, the Matanuska-Susitna Borough accepted and appropriated an original grant from the United States Fish and Wildlife Services (USFWS) to design and construct fish-friendly culverts. This grant had a 50 percent match requirement.

The grant is set to increase annually for five years, ending in 2025.

The USFWS recently issued an amendment awarding an additional \$82,000 for year three. The award requires the Borough to provide \$82,000 in matching funds. Matching funds are available from Fiscal Year 2021 areawide capital appropriations that were set aside to match. To date the USFWS has allocated a total of \$511,076.00 and the Borough has matched with \$511,076.00 for a total of \$1,022,152.00 in funding for Fish Passage Improvements.

The Matanuska-Susitna Borough is a member of the Mat-Su Basin Salmon Conservation Partnership, which is one of four nationally recognized fish partnerships by the National Fish Habitat Action Plan Board, through the USFWS. The partnership has created a strategic plan, which lists obstructions to fish passage as one of the major threats to salmon health in the Mat-Su Basin. Through this partnership, the United States Fish and Wildlife Service works collaboratively to remove barriers to fish passages, thus keeping our salmon population healthy and viable.

RECOMMENDATION OF ADMINISTRATION: Approve the legislation as presented.

Recipients are responsible for ensuring that their subrecipients and contractors are aware of and comply with applicable award statutes, regulations, and terms and conditions. Recipient failure to comply with award terms and conditions can result in the Service taking one or more of the remedies and actions described in Title 2 of the Code of Federal Regulations (CFR) §§200.339—343.

PAGE 5 of 10	DATE ISSUED 09/22/2022
GRANT NO.	F20AC11777-03

Failure to make required disclosures may result in any of the remedies for noncompliance described in 2 CFR §200.339, including suspension or debarment (see also 2 CFR Part 180).

Conflicts of interest: Per 2 CFR §1402.112, non-Federal entities and their employees must take appropriate steps to avoid conflicts of interest in their responsibilities under or with respect to Federal financial assistance agreements. In the procurement of supplies, equipment, construction, and services by recipients and by subrecipients, the provisions in 2 CFR §200.318 apply. Non-Federal entities, including applicants for financial assistance awards, must disclose in writing any conflict of interest to the DOI awarding agency or pass-through entity in accordance with 2 CFR §200.112. Recipients must establish internal controls that include, at a minimum, procedures to identify, disclose, and mitigate or eliminate identified conflicts of interest. The recipient is responsible for notifying the Service Project Officer identified in their notice of award in writing of any conflicts of interest that may arise during the life of the award, including those that reported by subrecipients. The Service will examine each disclosure to determine whether a significant potential conflict exists and, if it does, work with the applicant or recipient to develop an appropriate resolution. Failure to resolve conflicts of interest in a manner that satisfies the government may be cause for termination of the award.

Lobbying: If the Federal share of the award is more than \$100,000, recipients must disclose making or agreeing to make any payment using non-appropriated funds for lobbying in connection with the award. To make such disclosures, recipients must complete and submit the SF-LLL, "Disclosure of Lobbying Activities" form to the USFWS. This form is available at: https://www.grants.gov/web/grants/forms/post-award-reporting-forms.html. For more information on when additional submission of this form is required, see 43 CFR, Subpart 18.100. These restrictions are not applicable to such expenditures by Indian tribe, tribal organization, or any other Indian organization that are specifically permitted by other Federal law.

Other Mandatory Disclosures: Recipients and subrecipients must disclose, in a timely manner, in writing to the Service Project Officer identified in their notice of award or pass-through entity all violations of Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal award. Non-Federal entities subject to the 2 CFR 200, Appendix XII—Award Term and Condition for Recipient Integrity and Performance Matters are required to report certain civil, criminal, or administrative proceedings to SAM.

2. Buy America Provision

Required Use of American Iron, Steel, Manufactured Products, and Construction Materials for Infrastructure

As required by Section 70914 of the Infrastructure Investment and Jobs Act (Pub. L. 117-58), on or after May 14, 2022, none of the funds under a federal award that are part of a Federal financial assistance program for infrastructure may be obligated for a project unless all the iron, steel, manufactured products, and construction materials used in the project are produced in the United States, unless subject to an approved waiver. Recipients must include the requirements in this section all subawards, including all

contracts and purchase orders for work or products under this program.

None of the funds provided under this award may be used for a project for infrastructure unless:

- All iron and steel used in the project are produced in the United States. This means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States,
- 2. All manufactured products used in the project are produced in the United States. This means the manufactured product was manufactured in the United States, and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation, and
- all construction materials are manufactured in the United States. This means that all manufacturing processes for the construction material occurred in the United States.

This Buy America preference only applies to articles, materials, and supplies consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

For more information, visit the Department's Buy America site at www.doi.gov/grants/BuyAmerica and the Office of Management and Budget's site at www.whitehouse.gov/omb/management/made-in-america/.

Waivers

There may be instances where an award qualifies, in whole or in part, for an existing DOI general applicability waiver as described at www.doi.gov/grants/BuyAmerica/GeneralApplicabilityWaivers. If the specific financial assistance agreement, infrastructure project, or non-domestic materials meets the criteria of an existing general applicability waiver within the limitations defined within the waiver, the Recipient does not need to request a separate waiver for non-domestic materials.

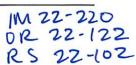

When necessary, recipients may apply for, and the Department of the Interior (DOI) may grant, a waiver from these requirements, subject to review by the Made in America Office. The DOI may waive the application of the domestic content procurement preference in any case in which it is determined that one of the below circumstances applies:

- Non-availability Waiver: the types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality,
- Unreasonable Cost Waiver: the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent, or
- Public Interest Waiver: applying the domestic content procurement preference would be inconsistent with the public interest.

If a general applicability waiver does not already apply, and the Recipient believes that one of the above circumstances applies to an award, the Recipient may submit a request to waive the application of the domestic content procurement preference.

Waiver Submission Instructions

Recipients must submit all waiver requests to the Service in writing. Email all waiver requests to fwhqfasupport@fws.gov. Please use the subject line: "Buy America Waiver Request". Include the following information with each waiver request:

- 11. A certification that the Recipient made a good faith effort to solicit bids for domestic products supported by terms included in requests for proposals, contracts, and nonproprietary communications with the prime contractor.

Project means the construction, alteration, maintenance, or repair of infrastructure in the United States.

3. Notice of Temporary Waiver of the Applicable Buy America Preference for Infrastructure

In Effect July 13, 2022-January 12, 2023

Per the Buy America, Build America Act (Section 70914 of the Infrastructure Investment and Jobs Act, Pub. L. 117-58) applicable to this award, none of the funds under a federal award may be obligated for an infrastructure project unless all the iron, steel, manufactured products, and construction materials used in the project are produced in the United States, unless subject to an approved waiver.

The Recipient hereby notified that as of July 13, 2022, the applicable Buy America preference for infrastructure is temporarily waived through January 12, 2023. On July 13, 2022, the Office of Management and Budget's Made in America office approved a General Applicability Waiver suspending the Buy America preference for Department of the Interior recipients for a six-month period. A copy of the approved waiver is available for the public on the "Approved Waivers" section of the Department of the Interior's Buy America web page (https://www.doi.gov/grants/buyamerica).

This waiver does not change the terms and conditions of this award, but rather suspends them for the specified period. This provides a window of opportunity in which your organization may identify known domestic supply chain issues affecting your Service award(s). If such issues are identified, please notify your Service program point of contact as soon as possible.

AWARD CONDITIONS

1. Continuation Award Requirements

The Service will provide a specific level of support for this multi-year project on an incremental basis. The period of performance on this award reflects the full period of anticipated Service sponsorship. The Service will amend this award to add new increments of funding over time. Each project segment will be assigned a discrete budget period, during which only allowable costs resulting from obligations incurred during the specified budget period may be charged to this award. You must request and receive prior written approval to "roll over" an unobligated balance of funds from one budget period into the next one. The Service's obligation to provide incremental funding up to the total anticipated award amount is contingent on satisfactory performance and the availability of Federal funds. No legal liability on the part of the Service exists unless and until the Service obligates funds and notifies the recipient in writing that funds are available for the next increment of this award.

Performance Period:

The performance period of this award is 10/1/2020 through 9/30/2025. This is the period of Federal sponsorship. The total amount of Service funding available for the first segment of this project is \$189,076.00. Only allowable costs resulting from obligations incurred during this funding period may be charged to this award.
