

Alaska Statute 29.20.080(a) states that not later than two months after adoption of a final State redistricting plan, the Assembly must determine if the existing apportionment of Assembly Districts meets State and Federal standards. In anticipation of this requirement on February 16, 2021, Information Memorandum Serial No. 21-032 was presented to the Assembly, outlining the process that would be used to reapportion Assembly Districts based on 2020 Census Data.

Due to the COVID-19 Pandemic and its associated shutdowns the release of the data files from the 2020 Census, originally set for release in March 2021, were delayed until August 12, 2021, and therefore the State redistricting process was not completed until November 12, 2021.

Borough staff secured the ESRI Redistricting software and in late January began drawing new Assembly District boundaries. Using the criteria outlined in Information Memorandum Serial No. 21-032.

**BACKGROUND:**

The 2020 decennial census determined the population for the Borough to be 107,081. When this number is divided by the current number of Assembly Districts, the target population for each Assembly District, to assure that residents are equally represented, is 15,297. Using data released by the U.S. Census Bureau on August 12, 2021, staff has made a preliminary determination of the population for each current Assembly District as of April 2020:

<b>2020 Population &amp; Deviation by District</b>			
Assembly District	Population	Difference from Target Population (15,297)	Deviation
1	14,022	-1,275	-8.33%
2	14,031	-1,266	-8.28%
3	15,206	-91	-0.59%
4	14,940	-357	-2.33%
5	17,738	2,441	15.96%
6	16,564	1,267	8.28%
7	14,580	-717	-4.69%

There is at present an estimated total deviation of 24.29 percent between the population of the district with the largest population, District 5, and the district with the smallest population, District 1.

**STAFF PRELIMINARY PLAN:**

Using the current Assembly Districts as a starting point and keeping the previously established goals and criteria, as outline

in Information Memorandum Serial No. 21-032, in mind, staff drafted a number of potential plans. The population growth in Assembly Districts 5 and 6 put them much higher than our target population of 15,297 and that additional population needed to be spread out to cover the shortages in the other districts.

Staff made every effort to keep Assembly and School Board Members within their districts, however, due to population, house district and precinct boundaries, we were not able to do so. All Assembly Members will remain in their districts, and so will four of the School Board Members. The remaining three School Board Members will now be in a different district which will result in the truncation of their term. The school board members for Districts 3, 5 and 6 no longer reside within the new district lines.

In addition to the population and deviation by District, staff also looked at racial statistics. Racial statistics are evaluated to ensure that when moving lines we do not inadvertently draw a district that divides a minority population and reduces their ability to elect fair representation.

Historically the Mat-Su has had a fairly consistent percentage of American Indian and Alaska Native (AIAN) residents within each district. The current Assembly Districts (AD), as approved during the reapportionment following the 2010 Census, indicated that there was between 8.2 percent and 11 percent AIAN in each district. All other races were under the one percent mark and therefore not tabulated in our review.

<b>2010 Final Assembly Districts</b>					
<b>AD</b>	<b>Population</b>	<b>Difference</b>	<b>Deviation</b>	<b>Total AIAN</b>	<b>%AIAN</b>
1	12,362	-352	-2.77%	1147	9.28%
2	12,783	69	0.55%	1323	10.35%
3	12,648	-66	-0.52%	1176	9.30%
4	12,375	-339	-2.66%	1256	10.15%
5	12,882	168	1.32%	1427	11.08%
6	13,101	387	3.05%	1076	8.21%
7	12,844	130	1.03%	1232	9.59%

The 2020 Census data shows an increase in overall population as well as an increase in the AIAN. In addition we now have a growing number of Hispanic or Latino (HL) residents. This increase puts our ideal AIAN population at 1,872 and ideal HL population at 749, per assembly district.

Prior to this reapportionment process the AIAN in each district ranged from 1,345 in District 1 up to 2,774 in District 5. In an

effort to keep those numbers consistent, the proposed plan slightly adjusts those numbers and the AIAN now ranges from 1,479 in District 1 and up to 2,500 in District 5. The AIAN and HL populations are fairly consistent throughout the borough before reapportionment and our proposed plan of apportionment does not change that.

2020 Before Reapportionment - Target POP 15,297							
AD	Pop.	Diff. from target	Deviation	Total AIAN	%AIAN	Total HL	%HL
1	14,022	-1,275	-8.33%	1,345	9.59%	477	3.40%

**ASSEMBLY DISTRICT LEGAL DESCRIPTIONS:**

In developing a plan for reapportionment staff used the 2020 Decennial Census blocks. Census blocks are required to follow natural features to the greatest extent possible. During the Participant Statistical Area Program (PSAP) completed in preparation for the 2020 Census, staff met with the US Census GIS staff to correct the Census Blocks that cut through structures due to subdivision growth and in an effort to alleviate issues when drawing new districts. During this process we were able to eliminate or combine some of the Census Blocks with zero population that are in lakes and rivers, and we hope to eliminate additional zero population blocks during the next PSAP process.

Staff attempted to use major roads, local roads, rivers and streams as the boundaries between Assembly Districts to the greatest extent

possible. The Mat-Su Borough will be retaining the services of a company to work with the Borough Clerk and Staff on drafting the written legal descriptions for staff's plan, and for any amendments the Assembly may adopt. It is the intent that the legal descriptions be based off of the final reapportionment plan map adopted by the Assembly.

The staff proposed plan followed the process outline in Informational Memorandum No. 21-032:

1. Seven Assembly Districts, each with a member elected from the district by the voters of the district;
2. Each district was developed by using the existing districts as a starting point;
3. Existing Assembly Members home addresses were marked in the software, with the addition of new addresses if the member was planning to move before the next regular election;
4. Preserves all municipal boundaries;
5. Preserves communities of common interest;
6. Creates compact districts; and
7. Follows natural features where possible; and
8. Over all deviation of the staff proposed plan is 8.29%, under the required 10%.

#### **SPECIAL ELECTION**

The qualified voters of the borough must vote on (1) a form of Assembly representation pursuant to Alaska Statute 29.20.070(b), and (2) a plan of apportionment that corresponds to that form of representation pursuant to Alaska Statute 29.20.080(a). The Staff proposed plan provides for both of these requirements.

A special election must be held in order to avoid multiple split precincts at the regular election in November. The elimination of split precincts will reduce the chances of errors and reduce costs.

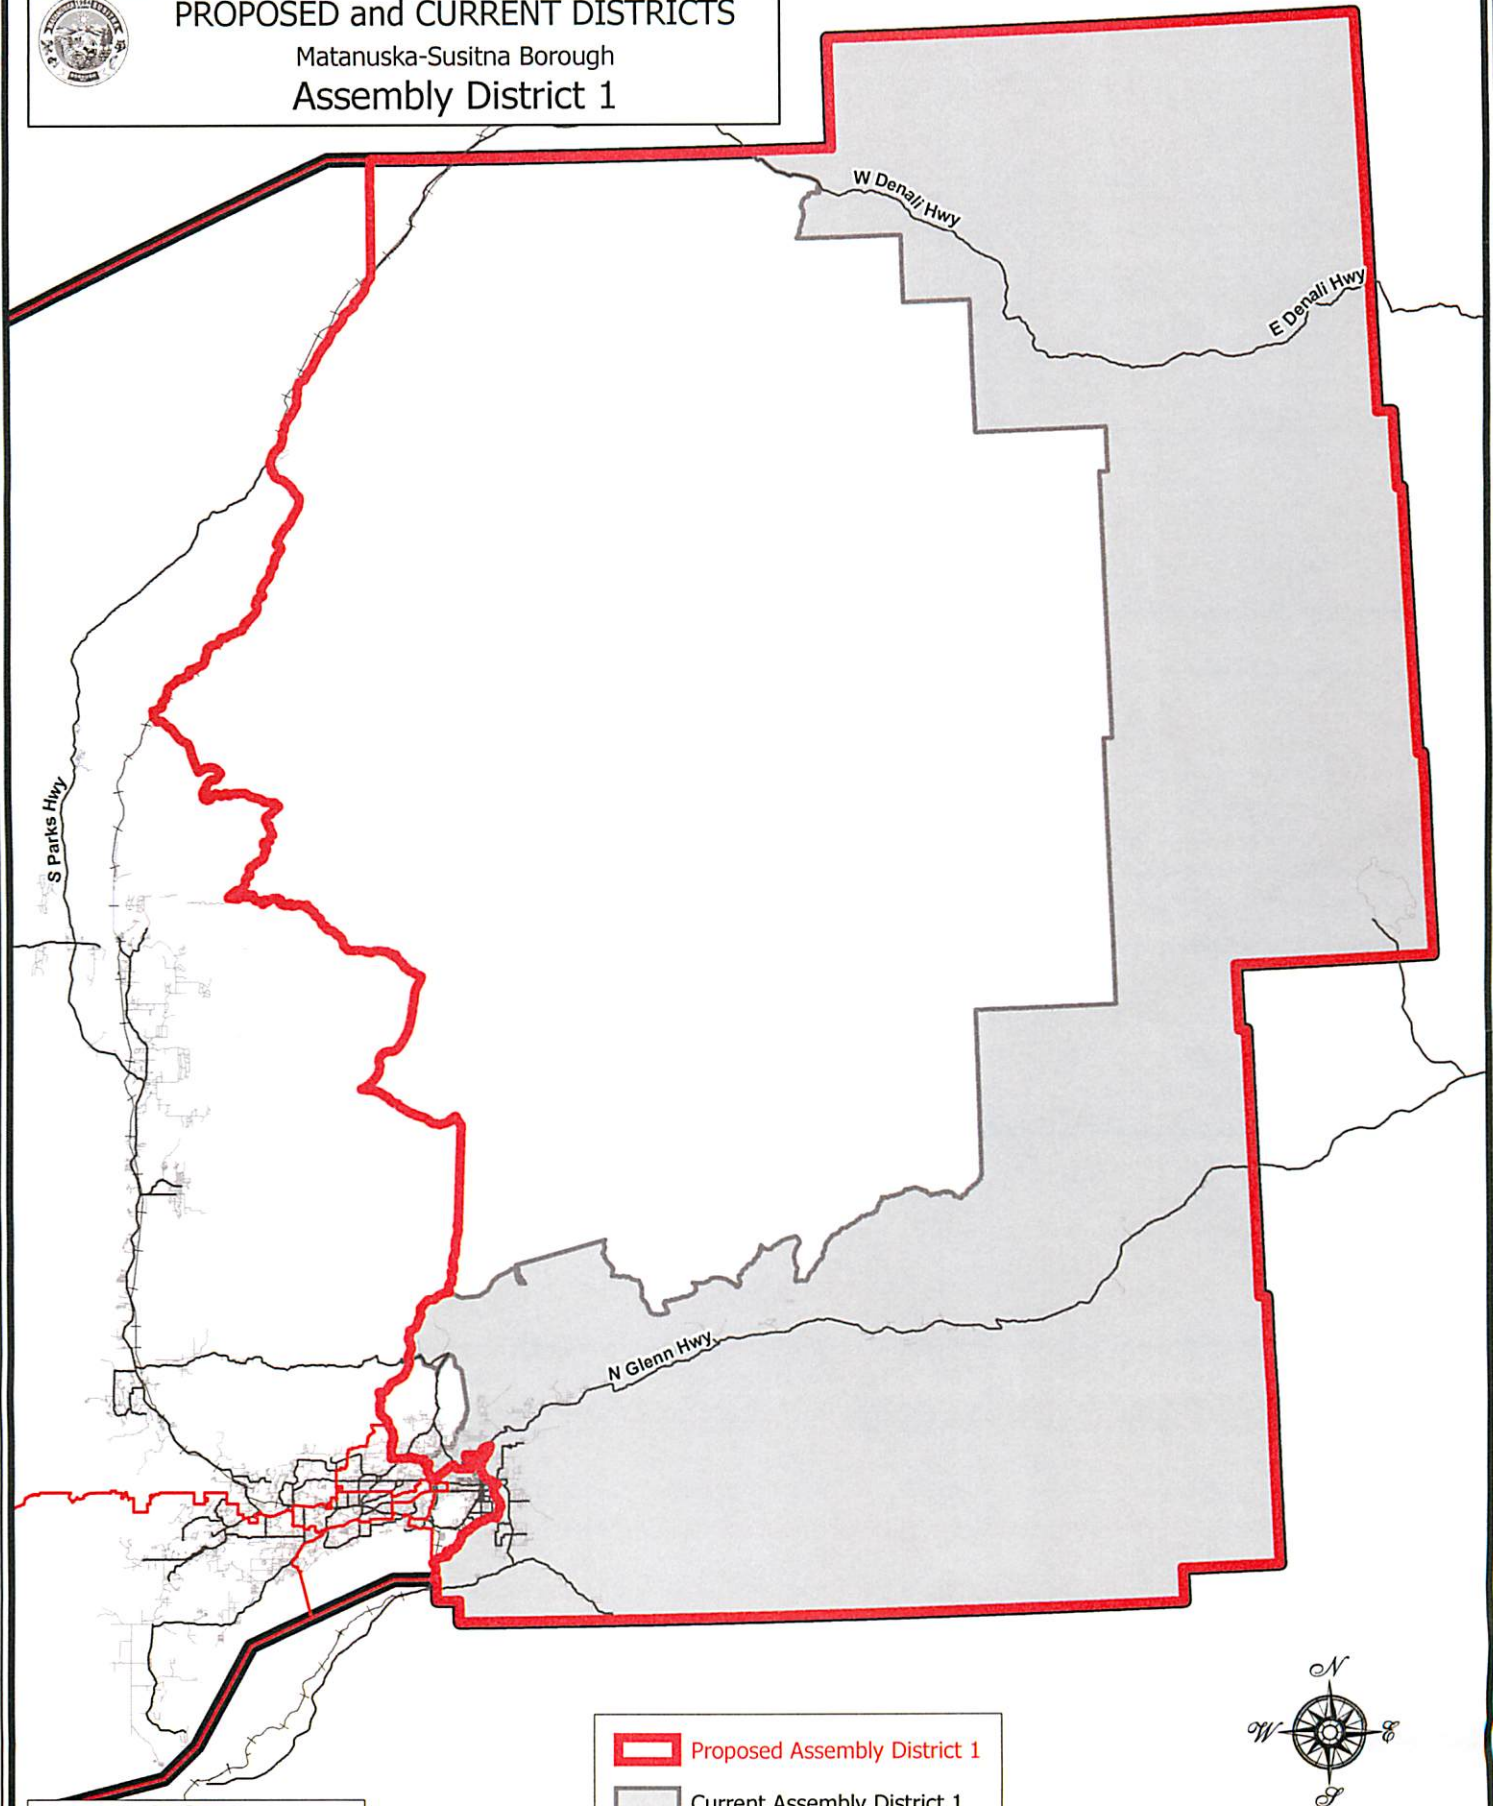

The Borough Clerk has asked that the Special Election occur on July 12, 2022; this will allow for time to certify the results and prepare new precinct maps prior to candidate filing opening on August 22, 2022.

**RECOMMENDATION OF ADMINISTRATION:** Adopt the legislation as presented.

**2.12.010 ELECTION.**

(A) The borough assembly shall consist of seven members elected from districts as follows:

**ASSEMBLY DISTRICT 1**

Beginning at the intersection of the Matanuska-Susitna Borough boundary and West Denali Highway, located along the section line between Section 23 and Section 26, Township 18 South, Range 4 West, Fairbanks Meridian, Alaska, also the junction of Assembly District No. 1 and Assembly District No. 7; thence running with the boundary of Assembly District No. 7 southeasterly on West Denali Highway to its intersection with Brushkana Creek located in Section 11, Township 19 South, Range 3 West, Fairbanks Meridian, Alaska; thence southerly, westerly, southwesterly, southeasterly and southwesterly along Brushkana Creek to its intersection with the township line between Section 33, Township 19 South, Range 3 West and Section 4, Township 20 South, Range 3 West, Fairbanks Meridian, Alaska; thence easterly along the township line to the township corner common to Section 36, Township 19 South, Range 2 West, Section 31, Township 19 South, Range 1 West, Section 1, Township 20 South, Range 2 West and Section 6, Township 20 South, Range 1 West, Fairbanks Meridian, Alaska; thence southerly along the range line to the township corner common to Section 36, Township 20 South, Range 2 West, Section 31, Township 20 South, Range 1 West, Section 1, Township 21 South, Range 2 West and Section 6, Township 21 South, Range 1 West, Fairbanks Meridian, Alaska; thence easterly along the township line to the township corner common to Section 36, Township 20 South, Range 1 West, Section 31, Township 20 South, Range 1 East, Section 1, Township 21 South, Range 1 West and Section 6, Township 21 South, Range 1 East, Fairbanks Meridian, Alaska; thence southerly along the Fairbanks Meridian to the township corner common to Section 36, Township 22 South, Range 1 West, and Section 31, Township 22 South, Range 1 East, Fairbanks Meridian, Alaska, along the boundary of Section 18, Township 33 North, Range 10 East, Seward Meridian, Alaska, also being the boundary between the Fairbanks Meridian and the Seward Meridian; thence easterly along the boundary between the Fairbanks Meridian and the Seward Meridian to the township corner common to Section 13, Township 33 North, Range 11 East and Section 18, Township 33 North, Range 12 East, Seward Meridian, Alaska along the boundary of Section 36, Township 22 South, Range 2 East, Fairbanks Meridian, Alaska; thence southerly along the township line to the township corner common to Section 36, Township 33 North, Range 11 East and Section 31, Township 33 North, Range 12 East, Seward Meridian, Alaska along the boundary of Section 6, Township 32 North, Range 12 East, Seward Meridian, Alaska, being also a standard parallel; thence westerly along the standard parallel to the township corner common to Section 1, Township 32 North, Range 11 East and Section 6, Township 32 North, Range 12 East, Seward Meridian, Alaska along the boundary of Section 36, Township 33 North, Range 11 East, Seward Meridian, Alaska; thence southerly along the township line to the township corner common to Section 36, Township 29 North, Range 11 East and Section 31, Township 29 North, Range 12 East, Seward Meridian, Alaska along the boundary of Section 6, Township 28 North, Range 12 East, Seward Meridian, Alaska, being also a standard parallel; thence westerly along the standard parallel to the township corner common to Section 1, Township 28 North, Range 11 East and Section 6, Township 28 North, Range 12 East, Seward Meridian, Alaska along the boundary of Section 36, Township 29 North, Range 11 East, Seward Meridian, Alaska; thence southerly along the township line to the township corner common to Section 36, Township 25 North, Range 11 East and Section 31, Township 25 North, Range 12 East, Seward Meridian, Alaska, along the boundary of Section 6, Township 24 North, Range 12 East, Seward Meridian, Alaska, being also a standard parallel; thence westerly along the standard parallel to the township corner common to Section 1, Township 24 North, Range 9 East and Section 6, Township 24 North, Range 10 East, Seward Meridian, Alaska, along the boundary of Section 36, Township 25 North, Range 9 East, Seward Meridian, Alaska; thence southerly along the township line to its intersection with Billy Creek, located along the section line between Section 13, Township 22 North, Range 9 East and Section 18, Township 22 North, Range 10 East, Seward Meridian, Alaska; thence southwesterly downstream along Billy Creek to the confluence of Caribou Creek, located in Section 26, Township 22 North, Range 9 East, Seward Meridian, Alaska; thence northwesterly and northerly upstream along Caribou Creek to its intersection with Boulder Creek Trail, located in Section 27, Township 22 North, Range 9 East, Seward Meridian, Alaska; thence westerly and northwesterly and southwesterly on Boulder Creek Trail to a non-visible point in Section 31, Township 21 North, Range 7 East, Seward Meridian, Alaska; thence on a non-visible point-to-point line northerly, northeasterly, northwesterly, southwesterly and northwesterly to its intersection with Chickaloon River, located in Section 15, Township 21 North, Range 6 East, Seward Meridian, Alaska; thence southwesterly downstream along Chickaloon River to the confluence of Doone Creek located in Section 5, Township 20 North, Range 6 East, Seward Meridian, Alaska; thence upstream along Doone Creek to its headwaters located in Section 35, Township 21 North, Range 5 East, Seward Meridian, Alaska; thence northwesterly and southeasterly on a non-visible point-to-point line to the headwaters of an unnamed creek located

in Section 34, Township 21 North, Range 5 East, Seward Meridian, Alaska; thence southeasterly, southerly and southwesterly along the unnamed creek to its confluence with Kings River in Section 8, Township 20 North, Range 5 East, Seward Meridian, Alaska; thence southerly downstream along Kings River to the confluence of an unnamed stream located in Section 17, Township 20 North, Range 5 East, Seward Meridian, Alaska; thence southwesterly and northwesterly upstream along the unnamed stream to its headwaters located within Section 35, Township 21 North, Range 4 East, Seward Meridian, Alaska; thence northwesterly on a non-visible point-to-point line to a non-visible point on an unnamed stream located in Section 34, Township 21 North, Range 4 East, Seward Meridian, Alaska; thence northwesterly downstream along the unnamed stream to the confluence of Granite Creek located within Section 28, Township 21 North, Range 4 East, Seward Meridian, Alaska; thence northeasterly and northwesterly upstream along Granite Creek to the confluence of an unnamed stream located in Section 17, Township 21 North, Range 4 East, Seward Meridian, Alaska; thence northerly upstream along the unnamed stream to its headwaters in Section 8, Township 21 North, Range 4 East, Seward Meridian, Alaska; thence southwesterly on a non-visible point-to-point line to the headwaters of an unnamed creek located in Section 24, Township 21 North, Range 2 East, Seward Meridian, Alaska; thence southeasterly downstream along the unnamed creek to a pond located in Section 25, Township 21 North, Range 2 East, Seward Meridian, Alaska; thence southeasterly on a non-visible point-to-point line to a non-visible point on Moose Creek located in Section 36, Township 21 North, Range 2 East, Seward Meridian, Alaska; thence southeasterly downstream along Moose Creek to its confluence with an unnamed stream located in Section 31, Township 21 North, Range 3 East, Seward Meridian, Alaska; thence northwesterly, westerly, southwesterly and northwesterly on a non-visible point-to-point line to a non-visible point on Bald Mountain Ridge located in Section 1, Township 20 North, Range 1 East, Seward Meridian, Alaska; thence southwesterly along Bald Mountain Ridge to its intersection with North Willow Fishhook Road in Section 5, Township 19 North, Range 1 East, Seward Meridian, being also the junction of Assembly District No. 6 and Assembly District No. 7 along the boundary of Assembly District No. 1; thence running with the boundary of Assembly District No. 6 northeasterly, southeasterly and northeasterly along North Willow Fishhook Road to Fishhook Creek; thence southeasterly downstream along Fishhook Creek to a non-visible point in Section 11, Township 19 North, Range 1 East, Seward Meridian, Alaska; thence southwesterly on a non-visible point-to-point line to a non-visible point in the Little Susitna River located in Section 11, Township 19 North, Range 1 East, Seward Meridian, Alaska; thence northeasterly upstream along Little Susitna River to its confluence with Delia Creek in Section 36, Township 20 North, Range 1 East, Seward Meridian, Alaska;
