

I move to amend Resolution 24-097 to align with the recent Resolution 24-099 for the Alaska Long Trail as follows:

1) Amend item E under Borough Action Priorities by removing and replacing the narrative after the title, Support for the Alaska Long Trail, to read as follows: The Assembly adopted Resolution Serial No. 24-099 on October 1, 2024, supports the proposed Alaska Long Trail, while opposing over-reaching restrictions through a National Scenic Trail designation and maintaining Borough land authority and management where applicable, Borough retention of the right to exercise existing and future management plans and economic development opportunities, and Borough jurisdiction of management of all Borough trails and uses, and retention of traditional uses of existing trails that are motorized use.

RATIONALE: This includes the language added in Resolution 24-099 specific to opposing the National Scenic Trail designation.
