BID #21-031B
BIRCH LAKE DR-SIMMS RD-SPRUCE CT IMPROVEMENTS
SCOPE OF WORK

General

This project's purpose is to realign, upgrade and improve the drainage along 3,684 linear feet of Simms Rd., Birch Lake Dr. & Spruce Ct. This project will involve, but is not limited to, clearing, grubbing, excavation, import and placement of borrow material, import and placement of aggregate base and surface courses, placing hot mix asphalt, installing drainage culverts and placing topsoil and seed.

This project is located in the vicinity of Big Lake, and may be accessed as follows: From MP 52.1 of the Parks, turn south onto Big Lake Rd. and proceed approximately 2.4 miles to the intersection with Birch Lake Dr. See project location and vicinity maps.

All construction shall be completed in accordance with the current Alaska Department of Transportation and Public Facilities (ADOT&PF) Standard Specifications for Highway Construction (SSHC) 2015 Edition. Project specific special provisions are provided in the following sections. The requirements contained in these specifications and special provisions are hereby made a part of this solicitation and resultant contract.

Work Description

- Supply labor, equipment, materials and supplies to perform the required work as shown on the construction plans for MSB project number 18-21-4681.
- Contractor is to provide resources to complete this project without any adjustments in the original bid amount or contract time.
- Contractor is required to obtain an ADEC APDES permit prior to utility relocation activities. Utility relocation work done by the utility companies will be performed under this permit.
- Contractor shall coordinate the road improvements with all utility relocation work. Request locates from the utilities having facilities in the area. Use the Alaska Digline, Inc. Locate Call Center. See Section 105-1.06 for digline number and a list of utility companies in the area.
- Work Zone speed limit: Limit speed of vehicles associated with construction to 20 miles per hour within project limits.
- ADOT Right of Way permit is being procured and will be provided at a later date. Contractor will be responsible to apply for and procure a lane closure permit from ADOT to perform the work within DOT Right of Way.
- Contractor shall complete ROW and utility easement staking and clearing and all necessary SWPPP items within ten days of NTP. This work shall be included in items 201(3B), 642(1), 641(1), and 641(3). Additional stump removal for utility support will be directed if needed and is not included in these items. The anticipated additional utility support areas beyond ROW are also included in the lump sum items listed and are as follows:
 - ROW and Utility Easement along the north side of Big Lake Rd. 150 feet east and west of the Birch Lake Dr. approach
 - Utility Easement ST 38+50 to 39+50 RT
- Time is of the essence. Work shall be completed in one continuous timeframe after utility relocations are completed. Substantial completion shall be achieved by September 30, 2020. Final completion shall be achieved by October 15, 2020.
- Estimated project magnitude is less than \$375,000.
