SUMMARY STATEMENT: This Federal Transit Administration (FTA) grant funding, awarded under Section 5307, will be used for contracted transit services, including fixed-route, demand-response, and paratransit operations, ensuring continued mobility and connectivity for residents and visitors. The grant covers expenses for the existing third-party contract with Valley Transit, which will run from October 1, 2025, through June 30, 2026. The total project budget is \$2,257,926, which includes both federal and local contributions.

To satisfy the required local match, the Assembly has already committed \$750,000 FY 2026 budget and \$45,000 in salary funds, meeting the FTA's match requirements for this award. These local funds, combined with the federal grant, ensure the sustainability of vital public transportation services. The Assembly's adoption of this ordinance and resolution affirms the scope of work and budget, enabling the MSB to leverage federal resources and local investment for the benefit of the community.

RECOMMENDATION OF ADMINISTRATION: Staff respectfully recommend adoption.

Project Environmental Findings

Finding: Class II(c) - Categorical Exclusions (C-List)

Class Level Description

Class II(c) consists of projects that do not have a significant environmental impact on the human or natural environment and are therefore categorically excluded from the requirement to prepare an environmental assessment or an environmental impact statement. FTA requires a sufficient project description to support a CE determination. The project may require additional documentation to comply with other environmental laws.

Categorical Exclusion Description

Type 04: Planning and administrative activities which do not involve or lead directly to construction, such as: training, technical assistance and research; promulgation of rules, regulations, directives, or program guidance; approval of project concepts; engineering; and operating assistance to transit authorities to continue existing service or increase service to meet routine demand.
