

I move to amend OR 23-033 by adding paragraph MSB 17.30.039(C)(1) to read as follows:

(1) additional registrations may be granted by the director upon finding that sufficient material remains to conduct further operations in accordance with requirements of 17.30.039 (F) (8) .

I move to amend OR 23-033 by deleting subsection 17.30.039(D) in its entirety:

~~(D) The extraction site shall not be within one-half mile of any other small gravel extraction site registered under this section.~~
