 Road Service Area Maintenance and Improvements List - Summer 2018. (24 pp.)
 Resolutions for RSA Board of Supervisors (16 pp.)

SUMMARY STATEMENT: The Public Works Department Operations and Maintenance Division in conjunction with Road Service Area Supervisors has prepared a list of necessary road improvements throughout sixteen road service areas.

Road Service Area Boards have filed resolutions in eleven of sixteen road service areas to support their respective projects. Road Service Area 9, 19, 23, 28, and 31 have no resolutions as there are no active boards in these road service areas. The Road Service Area Maintenance and Improvements List for RSA 9, 19, 23, 28 and 31 have been developed and reviewed by Operations and Maintenance staff. The projects identified for construction this year are a continuation of prior needed projects.

The attached list, entitled "2018 Road Service Area Maintenance & Improvements" is a result of project identification, assessment,

and prioritization.

Project funding source will be road service area capital budgets. Should there be adequate funding, the projects marked with a "YES" in the funded column are proposed to be developed and completed during the 2018 construction season. The projects marked "NO" in the funded column are needed but there are insufficient funds available for their inclusion in the 2018 construction schedule.

Upon approval of these projects by the assembly, scope of work development and competitive bidding will commence.

Completion of paving projects and dust control program that are eligible for the 50% Areawide Dust Control Program are solely dependent on Assembly appropriation of the Fiscal Year 2019 Areawide Dust Control funds. If this funding is not approved, the projects will not be constructed. These projects have been marked as "YES" in the funding column since the road service area funds are currently available.

RECOMMENDATION OF ADMINISTRATION: Approval of the Road Service Area Maintenance and Improvements List - Summer 2018
