VII. SPECIAL ORDERS

A. PERSONS TO BE HEARD (MSB 2.12.081; Three Minutes Per Person.)

There were no persons to be heard.

B. PUBLIC HEARINGS (Three Minutes Per Person.)

RS 22-097 A Resolution Approving State Legislative Priorities For Fiscal Year 2024.

Ms. McKechnie read the legislation into the record.

Mr. Brown provided a staff report.

Mayor DeVries opened the public hearing.

There being no one present who wished to testify, the public hearing closed and discussion moved to the Assembly.

Assemblymember Sumner moved to adopt Resolution Serial No. 22-097.

Assemblymember Sumner moved a primary amendment, Borough Actions Priorities, to include the following priority:

O. FISHERY MANAGEMENT

*** Support collaboration between the state and federal fisheries management to reduce by-catch.**

*** Increase funding for fish weirs in the Mat-Su Borough and increase genetic sampling to improve salmon management.**

*** Fully match federal funds from license fees to maximize federal dollars for fish and game.**

*** Hold Alaska State Board of Fisheries meetings at a neutral site, such as Anchorage, rather than in the Mat-Su Borough or Kenai Peninsula Borough,**

*** Maintain the conservation corridor for salmon.**

The primary amendment passed by the following vote:

Yes: 7 - Assemblymember Hale, Assemblymember Nowers, Assemblymember McKee, Assemblymember Yundt, Assemblymember Tew, Assemblymember Sumner, and Assemblymember Bernier

Assemblymember Nowers moved a primary amendment to Resolution Serial No. 22-097, Borough Funding Priorities, as follows:

A. FISHERY PROTECTION - \$2.5 MILLION

A strategic research, monitoring, and evaluation plan for the Upper Cook Inlet (completed in 2015) identified several informational gaps in local fisheries management. Many of the identified gaps resulted in funded projects. This work illustrated the need for additional funding of genetic stock analysis, economic impact studies of sport fishing, fishery management weirs, and control of aquatic invasive species. A segment of these monies will also help continue the Matanuska-Susitna Borough fish passage culvert replacement program that over the last 20 years has opened up significant habitat to anadromous fish.

The primary amendment passed by the following vote:

Yes: 7 - Assemblymember Hale, Assemblymember Nowers, Assemblymember McKee, Assemblymember Yundt, Assemblymember Tew, Assemblymember Sumner, and Assemblymember Bernier

Assemblymember Yundt moved a primary amendment to Resolution Serial No. 22-097, Borough Funding Priorities, as follows:

A. SUBSTANDARD ROAD AND BRIDGE IMPROVEMENTS - \$25 MILLION.

The Matanuska-Susitna Borough is the fastest growing borough in the state of Alaska. Many roads built decades ago were not built up to appropriate standards, lack sufficient right-of-way and sight distance, and are not designed or constructed for the amount of traffic on the roads. Improvements to these existing roads will improve the functionality and safety for the travelling public. These roads are part of the community transportation plan and the Matanuska-Susitna Borough's Long Range Transportation Plan. Numerous bridges on the Borough's road system have also outlived their design life and require costly repairs or complete replacement. Work needed to bring the bridges into compliance with federal standards range from riprap replacement to protect against the rivers and creeks that they cross, to full replacement of bridges that are settling or have reduced structural capacity. Several bridges have reduced weight limits because of substandard design and/or gradual deterioration, which limits the type of vehicle that can use the bridges hindering the development of private properties that rely on the bridges for access. This funding will make improvements to the existing road system, particularly in rural communities with a limited tax base, and extend the life of multiple bridges.

Yes: 7 - Assemblymember Hale, Assemblymember Nowers, Assemblymember McKee, Assemblymember Yundt, Assemblymember Tew, Assemblymember Sumner, and Assemblymember Bernier

Assemblymember Nowers moved a primary amendment to Resolution Serial No. 22-097, Borough Funding Priorities, Item F, Education Support, 4th bullet, by inserting after the words “engage in” the following language “70/state/30 Borough split for school bond debt reimbursement.” And to capitalize the word “Cost” to read:

*** “Ending the moratorium and allowing local governments to once again engage in 70 State/30 Borough split for school bond debt reimbursement qualified projects. Cost. . .”**

The primary amendment passed by the following vote:

Yes: 7 - Assemblymember Hale, Assemblymember Nowers, Assemblymember McKee, Assemblymember Yundt, Assemblymember Tew, Assemblymember Sumner, and Assemblymember Bernier

The main motion passed as amended by the following vote:

Yes: 7 - Assemblymember Hale, Assemblymember Nowers, Assemblymember McKee, Assemblymember Yundt, Assemblymember Tew, Assemblymember Sumner, and Assemblymember Bernier

RS 22-098 A Resolution Approving Federal Legislative Priorities For Fiscal Year 2024.

Ms. McKechnie read the legislation into the record.

Mayor DeVries opened the public hearing.

The following person opined that the Mat-Su Convention and Visitor's Bureau should be added to the Federal Priority Funding list: Bonnie Quill, Mat-Su Convention and Visitor's Bureau Executive Director.

There being no others present who wished to testify, the public hearing closed and discussion moved to the Assembly.

Assemblymember Sumner moved to adopt Resolution Serial No. 22-098.

Assemblymember Nowers moved a primary amendment to Resolution Serial No. 22-098, Borough Funding Priorities, the following:

*** 12. FISHERY PROTECTION - \$4 MILLION**

This project will continue efforts to protect the Matanuska-Susitna Borough's declining salmon populations by restoring fish habitat and passage and providing critical resources for research, monitoring and evaluation of projects to inform sound scientific policy recommendations for improved Upper Cook Inlet Fishery Management. Salmon populations are declining in the Borough as evidenced by the State designated stocks of concern, frequent sport fishing closures, and associated business losses. A strategic Research, Monitoring, And Evaluation Plan for the Upper Cook Inlet (completed in 2015) identified significant gaps in data as a barrier to understanding the salmon population declines and the complex economic consequences. Actions proposed include: continuing successful initiatives aimed at quantifying the economic significance of Upper Cook Inlet sport fisheries, fish habitat restoration including the replace of fish passage barriers, and installing fish counting tools on critical drainages to provide in-season fishery data. These efforts will apply more stock-specific management strategies to ensure more consistent and abundant returns of wild salmon to the northern waters of

the Borough.
