SUMMARY STATEMENT:

In the Fiscal Year 2025 Capital Projects budget, \$855,000 was appropriated to project 45225-1844 to provide funding to replace the ambulance services fleet of Stryker Power Pro patient stretchers and Stair Pro wheelchair stretchers.

There are other companies offering comparable medical equipment and we would like the option of expanding beyond the Stryker brand to ensure we are purchasing the best options.

Additionally, the ambulance service utilizes of other types of durable medical equipment in the daily execution of their duties and responsibilities as Pre-Hospital Care Providers. These items

include cardiac monitors and defibrillators as well as other durable medical equipment including suction units, infusion pumps, and various other non-disposable patient care equipment.

The ability to purchase or replace these types of equipment under this project will assist us in maintaining our operational readiness, safeguarding provider and patient safety, and advancing the department's mission.

RECOMMENDATION OF ADMINISTRATION: Respectfully request approval of the amended title and scope of work on project 45225-1844, fund 425 for Durable Medical Equipment.
