 Road Service Area Road Improvement Project Lists -  
 2022 (25 pp.)  
 RSA Boards of Supervisors Resolutions (13 pp.)

**SUMMARY STATEMENT:** The Public Works Department, in conjunction with Road Service Area (RSA) Boards of Supervisors, has prepared a list of necessary road improvements throughout the sixteen road service areas.

RSA Boards have filed resolutions in ten of the sixteen RSAs to support their prospective projects. Six RSAs have no resolutions because there were no quorums to support them. The projects identified are primarily a continuation of previously approved projects.

The attached lists, entitled "2022 Road Service Area Road Improvement Project List" is a result of project identification, assessment, and prioritization between the Boards of Supervisors and Public Works Staff.

The Meadow Lakes Grade Crossing Signal System Relocation and Upgrade project was added after the RSA 27 board meeting that approved the RIP list. Blanket agreement no. 6139 between MSB and Alaska Railroad, executed January 5, 1989, states that the MSB is required to maintain and upgrade permitted crossings. Alaska Railroad is requiring this project and has determined it is necessary for the traveling public's safety and for compliance with Federal transportation regulations.

Project funding sources will be road service area capital budgets. Should there be adequate funding, the projects marked with a "YES" in the funded column are proposed to be designed or completed during 2022. The projects marked "NO" in the funded column are needed but there are insufficient funds available for their inclusion in the 2022 design and construction schedule, unless additional funds become available or funded projects get delayed.

Upon approval of these projects by the assembly, development and competitive bidding will commence.

**RECOMMENDATION OF ADMINISTRATION:** Approve the Road Service Area Road Improvement Project List - 2022

MATANUSKA-SUSITNA BOROUGH  
FISCAL NOTE

Agenda Date: February 1, 2022
