

I move to amend Resolution Serial No. 22-106 as follows:

ADD to the Scope of Work:

15040 Parks & Recreation Projects - GPRA Overflow Parking Lot

Funding will be used in conjunction with other funding for the design and construction of the Government Peak Overflow Parking Lot.

And Adjusting the Budget by Adding

15040 GPRA Overflow Parking Lot \$ 500,000

And reducing

35473 Non-Federal Grant Match from \$1,375,813.21 to \$ 875,813.21

BUDGET

Project # and Title AMOUNT

15040 GPRA Overflow Parking Lot		500,000
35473 Non-Federal Grant Match	\$ 1,375,813.21	\$ 875,813.21
40206 Mat-Su Central School Construction		<u>\$3,400,000</u>
	TOTAL	<u>\$ 4,775,813.21</u>

Rationale: The Assembly previously appropriated \$850,000 for construction of the GPRA overflow parking lot. The Borough is pursuing a grant from the Mat-Su Health Foundation (MSHF) with the intent of rounding out the funding for this project. Feedback on the grant application is that it is unlikely to be funded. Additionally, MSHF will not be able to consider the application until February 2023. This amendment will provide additional project funding to allow staff to put the design out to bid this winter to get the best pricing for construction during the summer of 2023.
