

The intent of this amendment is to exempt fuel delivered to businesses with dedicated storage tanks who dispense fuel to non-roadway uses such as heavy equipment.

Therefore:

I move to amend Ordinance Serial No. 25-076 by adding a new section MSB 3.80.040(A)(7) to read as follows:

7. Motor fuel that is sold or transferred to a businesses with a dedicated storage tank for use exclusively on non-roadway uses such as heavy equipment.
