**ATTACHMENT (S):** Resolution Serial No. 26-019 (6 pp)  
 Maps (4 pp)

**SUMMARY STATEMENT:** This legislation is coming forward at the request of Assemblymembers Fonov and Bernier.

The Borough is committed to fostering economic development, creating diverse revenue streams, and enhancing employment opportunities for Borough residents.

As directed by the Assembly, staff has recently released a Request for Interest (RFI) regarding data centers and large power consumers. Four areas of MSB-managed land have been identified as having

potential for data centers or large power or industrial uses. The four designated areas include: Fish Creek Parcels (approximately 3,435 acres), Ayrshire North (approximately 2,560 acres), Goose Creek (approximately 2,645 acres), and Hollywood Road (approximately 1,230 acres).

Terra Energy Center Corporation (TECC) is interested in developing an energy infrastructure project in the Borough, with the mission of providing power for industrial and commercial investment in the Borough.

Currently, TECC has a land use permit in the Port District encompassing approximately 1,058 acres near Lake Lorraine. The purpose of the permit is to allow TECC the ability to conduct due diligence, marketing, and testing to confirm the feasibility of developing an Advanced Manufacturing and Computing Campus, accommodating large power consuming industries.

TECC intends to pursue a lease agreement for the land under permit in the Port District as well as the Goose Creek parcels identified in the RFI.

In April 2026 TECC is launching an international marketing campaign to market Alaska, and specifically the Borough, as a desirable destination for significant investment and industrial and large facility development. The purpose of the marketing campaign is to solicit expressions of interest from large power consumers who may be interested in development in the Borough.

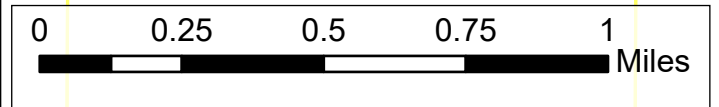

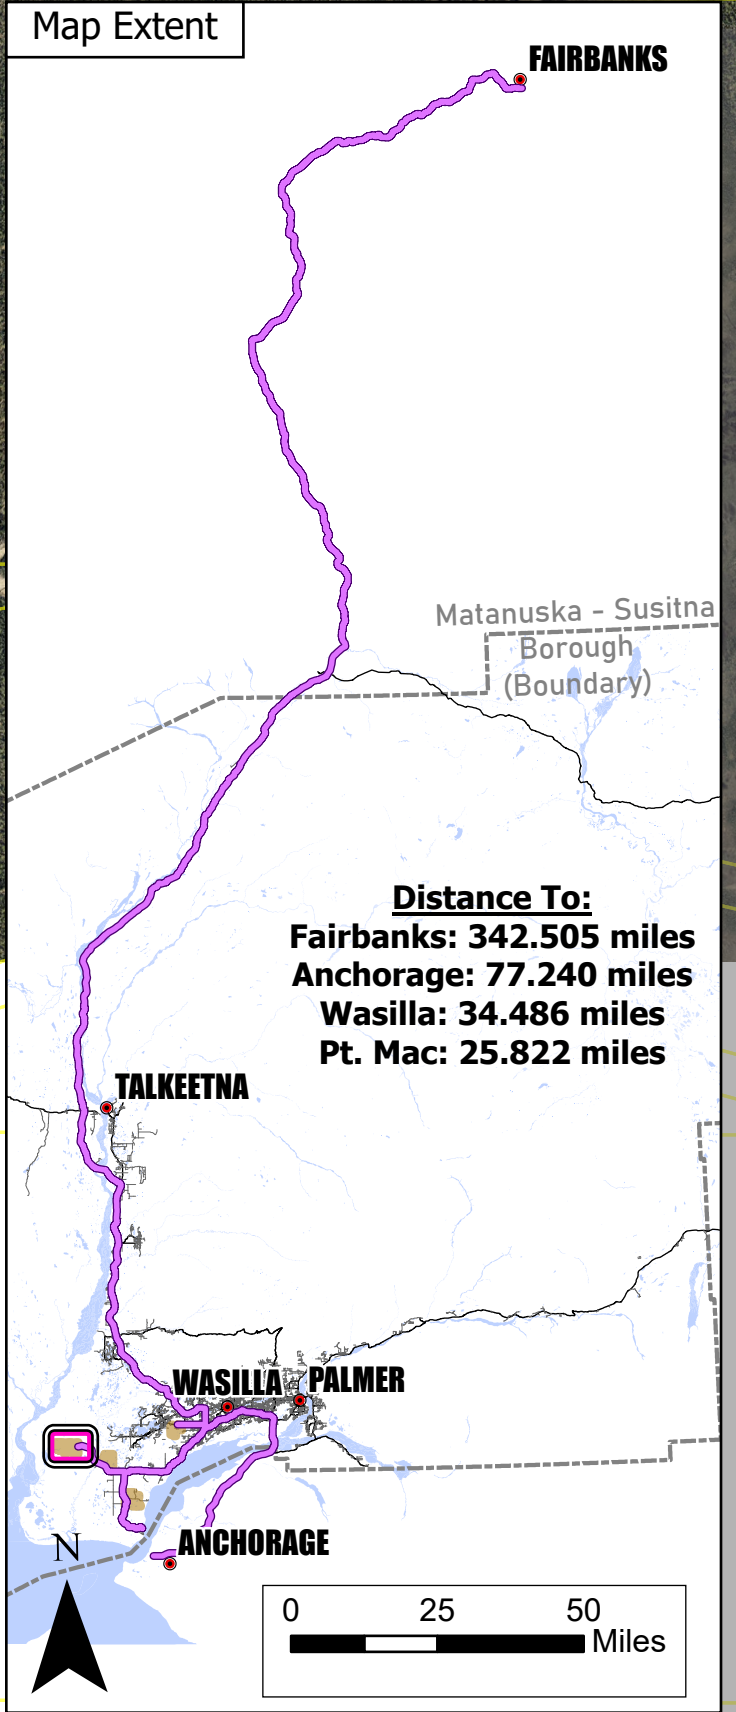

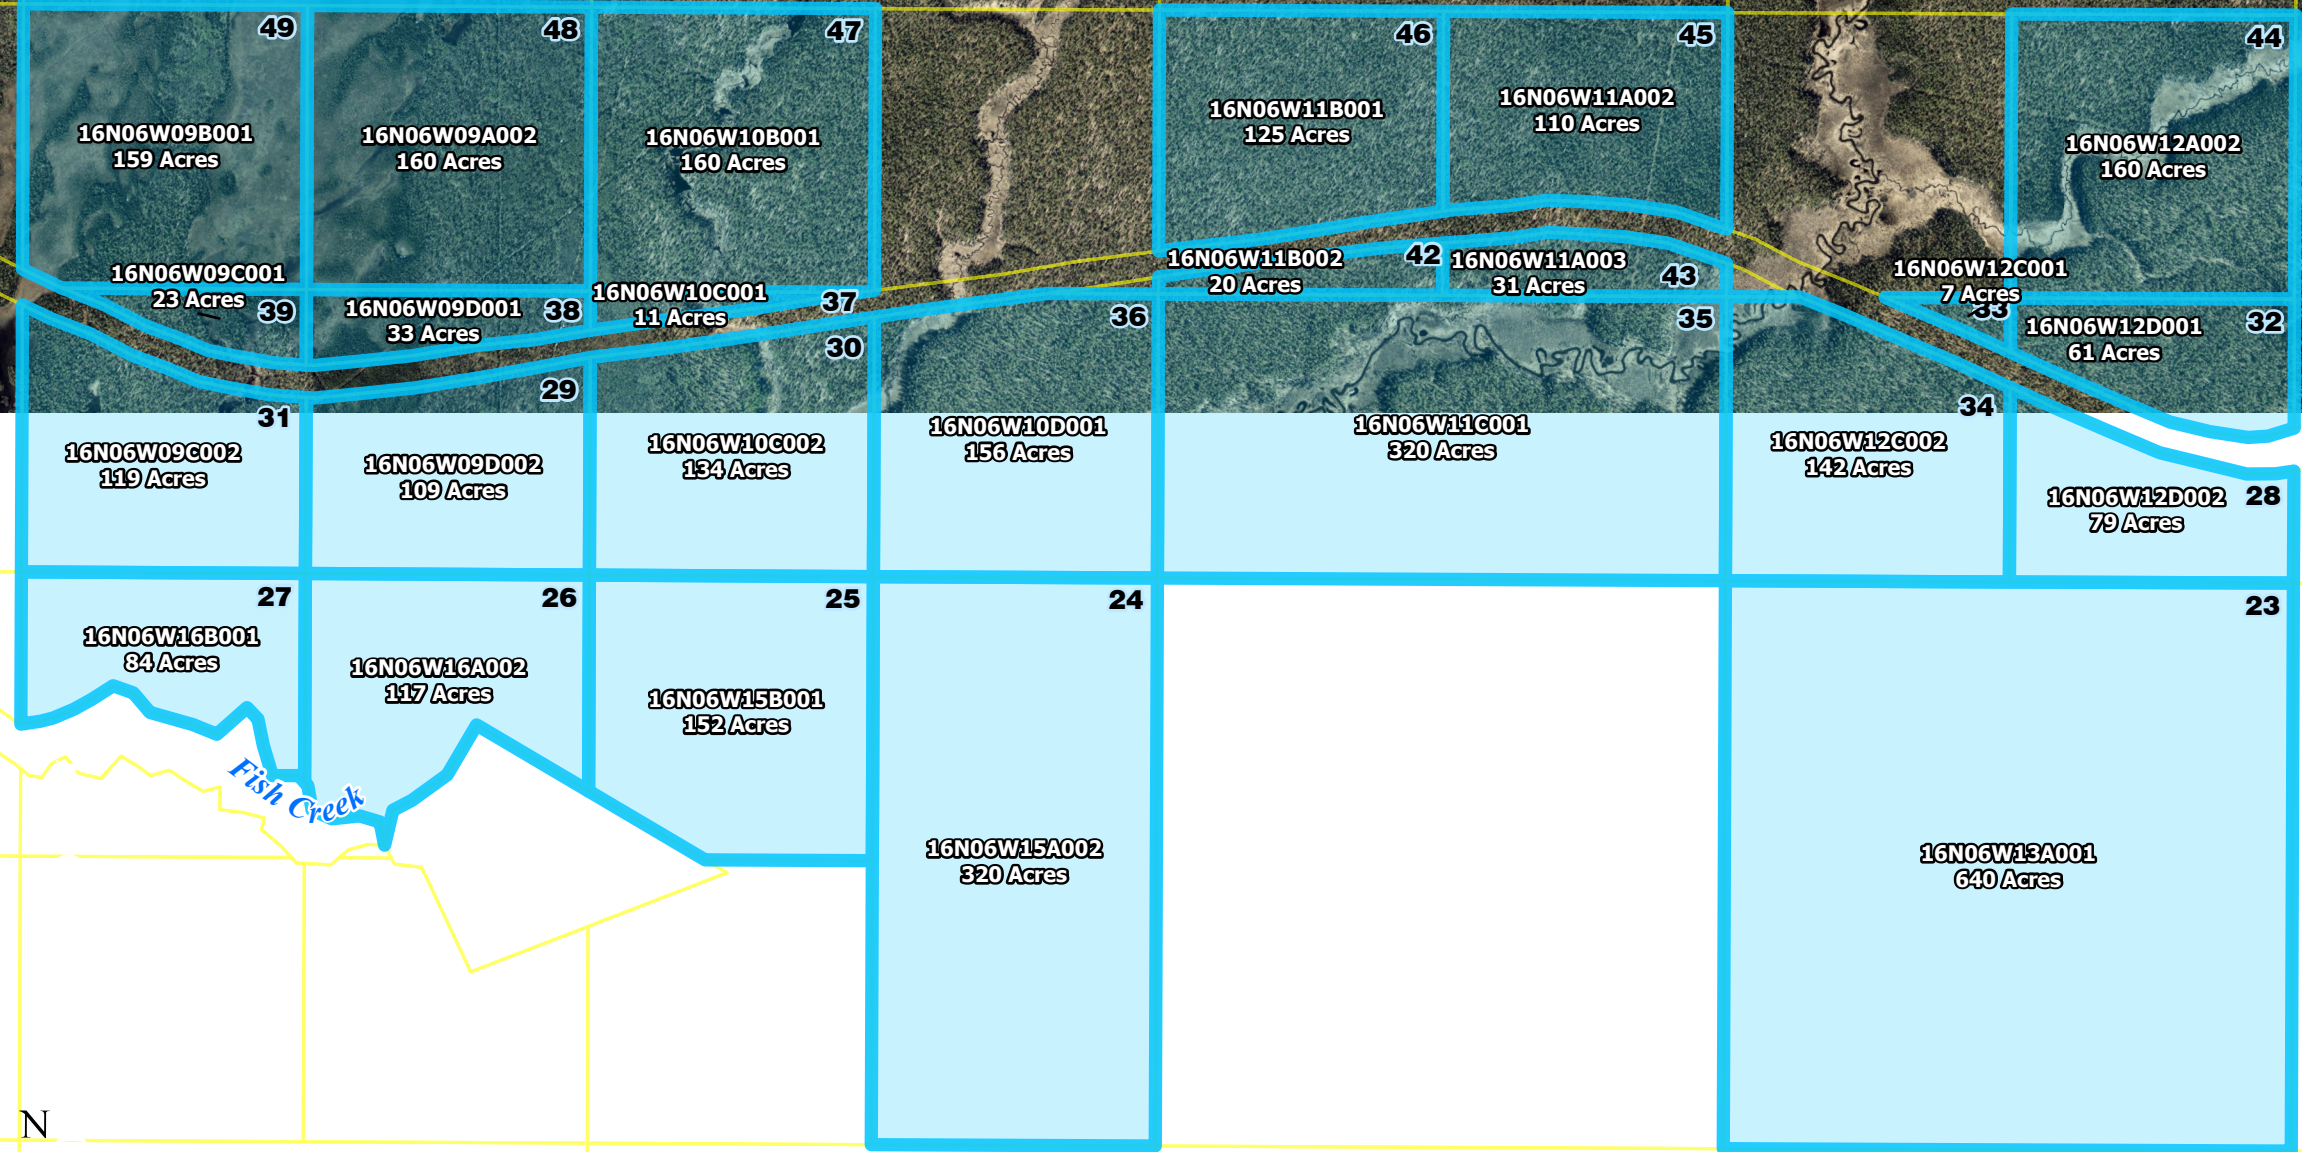

TECC has proposed a 24-month joint marketing effort with the Borough to market the TECC lands under permit in the Port District and the lands included in the RFI. TECC will be responsible for funding the marketing effort and the Borough will be responsible for providing appropriate staff as needed and related support. Collaborating on a joint marketing campaign will not obligate the Borough to sell, lease, or otherwise dispose of any Borough managed lands.

**RECOMMENDATION OF ADMINISTRATION:** Respectfully request approval.

# Fish Creek Area

Cadastral Parcels

Total Area available  
in Fish Creek:  
3431.04 Acres
