

- I move to amend the Subdivision Construction Manual, Section C02.5 (e) , (p.21) by striking the paragraph and inserting the following (numbers 1 through 4 remain):

For Residential and Residential Subcollector standard roads, compact all embankment to not less than 90 percent of the maximum dry density and the top 24 inches to not less than 95 percent of the maximum dry density. For Residential Collector standard roads, compact all embankment to not less than 95 percent of the maximum dry density.
