- Bring the world to Alaska by connecting people across the state with other Alaskans and Americans through internet access and events, meetings, and training via videoconferencing.
- Reduce costs for libraries, agencies, and organizations by substituting video meetings and visits for travel.
- Provide information technology training to Alaska library staff and residents to enhance future education, employment prospects, and quality of life.

OWL Internet Cost Assistance provides supplementary funding for internet connectivity costs to public libraries in Alaska as part of the OWL program's mission to provide Alaskans with the benefits and opportunities that come with access to high-speed internet.

3. Eligibility and Funding Criteria

Public libraries in Alaska that are eligible to receive the [Public Library Assistance \(PLA\) Grant](#) are also eligible to apply for OWL Internet Cost Assistance. Eligibility requires a "Yes" to the question below.

Is the public library (and branches if applicable) currently eligible to receive the Public Library Assistance Grant according to [Alaska Library Law](#)? Yes ☐ No ☐

The award amount is determined based on these factors:

- Annual internet cost
- E-Rate percentage (if applicable - receipt of E-Rate is not required)
- Amount of funding available for the OWL Program through the State.

This funding opportunity applies only to internet service for the library; it cannot be used to pay internet bills that include access for other departments or entities.

The OWL Internet Cost Assistance Program awards may be used only for recurring Internet costs. One-time fees, equipment, and/or labor costs (such as service installation costs) are not eligible.

4. E-Rate Participation

Receipt of E-Rate is not required for this funding opportunity, but it is necessary to note whether a library receives E-Rate funds.

Does the library receive E-Rate Funding? Yes ☐ No ☐

5. Budget

These funds must be spent or encumbered between July 1 and June 30. They cannot be carried over into the following year's budget or put into the city's general fund. 2. Purpose of Funding

The Alaska Online With Libraries (OWL) Program is funded by the State of Alaska to:

- Provide Alaska residents with access to high-speed internet and computing equipment in public libraries to access essential online information and resources for education, employment, government services, health, and enjoyment.
- Bring the world to Alaska by connecting people across the state with other Alaskans and Americans through internet access and events, meetings, and training via videoconferencing.
- Reduce costs for libraries, agencies, and organizations by substituting video meetings and visits for travel.
- Provide information technology training to Alaska library staff and residents to enhance future education, employment prospects, and quality of life.

OWL Internet Cost Assistance provides supplementary funding for internet connectivity costs to public libraries in Alaska as part of the OWL program's mission to provide Alaskans with the benefits and opportunities that come with access to high-speed internet.

3. Eligibility and Funding Criteria

Public libraries in Alaska that are eligible to receive the Public Library Assistance (PLA) Grant are also eligible to apply for OWL Internet Cost Assistance. Eligibility requires a "Yes" to the question below.

Is the public library (and branches if applicable) currently eligible to receive the Public Library Assistance Grant according to Alaska Library Law? Yes ☒ No ☐

The award amount is determined based on these factors:

- Annual internet cost
- E-Rate percentage (if applicable - receipt of E-Rate is not required)
- Amount of funding available for the OWL Program through the State.

This funding opportunity applies only to internet service for the library; it cannot be used to pay internet bills that include access for other departments or entities.

The OWL Internet Cost Assistance Program awards may be used only for recurring Internet costs. One-time fees, equipment, and/or labor costs (such as service installation costs) are not eligible.

4. E-Rate Participation

Receipt of E-Rate is not required for this funding opportunity, but it is necessary to note whether a library receives E-Rate funds.

Does the library receive E-Rate Funding? Yes ☐ No ☒

5. Budget

These funds must be spent or encumbered between July 1 and June 30. They cannot be carried over into the following year's budget or put into the city's general fund. Any money not spent or encumbered by June 30 must be returned to the Alaska State Library. 100% of the funding awarded must be dedicated to recurring library internet costs. **The OWL Award must not overlap with E-Rate funding.** If you have questions, email eed.owlprogram@alaska.gov.

A. Budget Documentation

- For libraries that receive E-Rate: Please attach a copy of your Funding Commitment Decision Letter from USAC. If you have a contract with your ISP that shows the monthly or annual amount you pay, please attach a copy of the portion that specifies the agreed-upon amount.
- For libraries that DO NOT receive E-Rate: If you have a contract with your ISP that shows monthly or annual costs, please attach a copy of the section specifying the agreed-upon amount. If you do not have a contract, please attach copies of the three most recent months of your library's internet bill.

B. Budget Documentation Summary

Please indicate the supporting documents included in this application.

E-Rate Libraries:

- ☐ Funding Commitment Decision Letter (USAC)

Non-E-Rate Libraries:

- ☐ ISP Contract documentation with the annual agreed price
or
☒ Three recent internet bills

6. Wireless Sessions Measurement Requirement

To document the use of internet connections subsidized by the OWL Program, the Alaska State Library requires that libraries receiving OWL Program funds have a method (automated or otherwise) for counting the number of wireless sessions on the library's Wi-Fi, so they can report this statistic. If a library does not have a way to measure wireless use, the Alaska State Library will provide advice on possible methods.

Please check one:

- ☐ We use WhoFi to count wireless sessions.
- ☒ We use MTA (method) to count wireless sessions.
- ☐ We DO NOT have a way of counting wireless sessions. Contact us for consultation.
